**Examiner Education Program Contributions Tax Deductible**

The Internal Revenue Service has issued a ruling that financial contributions made in support of the Patent Examiner Education Program are tax deductible for the taxable year in which the contributions are made. The ruling is reproduced below.

July 20, 1982.

Dear Mr. Mossinghoff:

This is in reply to your request for a ruling whether contributions to your office under the following circumstances are deductible under section 170 of the Internal Revenue Code.

The Patent and Trademark Office of the Department of Commerce is promoting a Patent Examiner Education Program, which will improve the capabilities of its patent examiners to make decisions on patentability. That, in turn, will improve the quality of patents issued by the Office. Private industry is being asked to provide the funds for the Program because funds are not available from Congressional appropriations or fees received by the Office. Industry is also being asked to make commercial facilities available for visits under the Program. It is not necessary that a person who makes a facility available for visits also make a financial contribution. The identification of donors and gift amounts will be known to about four individuals in the Office. Neither the examiners nor the individuals assigning examiners to visit industrial facilities will know the donors or amounts of their gifts. Donors to the Program will not have any part in the assignment of examiners to visit the facilities.

Section 170 of the Code provides, subject to certain limitations, a deduction for contributions and gifts to or for the use of organizations described in section 170(c), payment of which is made within the taxable year.

Section 170(c)(1) of the Code provides, in part, that the term "charitable contribution" means a contribution or gift to or for the use of the United States, but only if the contribution or gift is made for exclusively public purposes.

The term "charitable contribution," as used in section 170 of the Code, requires a contribution or gift. A contribution or gift, for the purposes of section 170, is a voluntary transfer of money or property made by the transferor without receipt or expectation of financial or economic benefit. If the transferor receives, or can reasonably expect to receive, sufficiently substantial financial or economic benefits in excess of those that would inure to the general public, no deduction under section 170 is allowable. *United States* v. *Transamerica Corp.*,

392 F.2d 522 (9th Cir. 1968); and *Singer Co.* v. *United States*, 449 F.2d 413 (Ct. Cl. 1971).

Rev. Rul. 69-90, 1969-1 C.B. 63, holds that voluntary payments by merchants and property owners to a city to provide unrestricted public parking facilities located in the general area of the donors' businesses and properties are charitable contributions. This conclusion is based on the fact that the payments were not consideration for an agreement on the part of the city to provide parking facilities for the use of the contributors. The parking spaces were for the use of the general public and the amount of the contributions was not based on proximity or probable use. Thus, there was no special economic benefit conferred on the contributor by reason of the contribution.

In Rev. Rul. 73-296, 1973-2 C.B. 67, the Service considered whether contributions to United States Army Unit Funds, which are integral parts of the Army, are deductible under section 170 of the Code. The Funds could accept contributions if acceptance was found to be in the best interest of the Army and did not involve the granting of special privileges to the donor. The revenue ruling concludes that contributions to the Funds under these circumstances are deductible as contributions to or for the use of the United States under section 170, provided the contributions are for exclusively public purposes.

Contributions to the Program do not confer special privileges on the donors. The contributions provide funds for a program for which funds are not available from Congressional appropriations.

Accordingly, amounts contributed to the Program are deductible under section 170 of the Code, subject to the limitations provided by that section, as contributions to or for the use of the United States, provided the contributions are used exclusively for public purposes.

Sincerely yours,

Anthony Manzanares, Jr.,
*Chief, Individual Income Tax Branch*

The Patent Examiner Education Program, conducted jointly by the U.S. Patent and Trademark Office and Intellectual Property Owners, Inc., is described in the notice published in the Official Gazette of May 25, 1982, 1018 OG 39.
